TECH SKILLS & TOOLS

- **Skills:** Manual, Automation, API, Database, UAT, Regression & Functional Testing, Core JAVA, SDLC/STLC
- **Frameworks:** Selenium, TestNG, Cucumber, Data Driven
- **Tools:** Eclipse, Agile (JIRA), Builder Tracker, Postman, Excel, GIT, Maven, AWS, Jenkins, CI/CD, Power BI, SQL

WORK EXPERIENCE

☐ QA Engineer | Qualimatrix Technology (July 2024 - Present)

Project Description:

- **Project Name:** PodcastTownApp
- **Domain:** Streaming services

Key Responsibilities and contributions:

- Designed and executed comprehensive test plans and cases for web applications, focusing on features such as Navigation Menus, Audio Players, and Monetization flows.
- Collaborated with developers and product managers to identify and resolve defects, achieving a 20% reduction in defect leakage.-
- Contributed to the successful launch of Sprint features like Enhanced Signup Workflow and Audio Player Full Screen Mode.
- Maintain a bug tracker and monitor the status of features throughout the development lifecycle.
- Thoroughly execute test cases to ensure comprehensive test coverage and identify defects.
- Effectively communicated with stakeholders to gather feedback, implement necessary changes, and ensure alignment with project requirements.
- Prepare release notes and related project documentation.
- Involved in daily huddle calls to coordinate with the onsite team and clients.

☐ Diploma From Naresh I Technologies (Nov 2023 - April 2024)

Course Title: Selenium With Java

Key Responsibilities and contributions:

- Test Case Design and Development.

- Automation Script Development.
- Framework Setup and Configuration.
- Test Maintenance and Refactoring.

Project Name: NOP Commerce & Salesforce

- Project Link 1: <https://youtu.be/dceG3WVA45U>
- Project Link 2: <https://www.youtube.com/watch?v=BpjWZXZcq9Q>

Technologies Used: Selenium WebDriver, TestNG (testing framework), Maven (for project management and dependencies) & Integrated Development Environment (IDE) Eclipse.

☐ Manual Tester | Initfusion Pvt. Ltd.

(July 2022 - Sep 2023)

"As a Manual Tester, I was integral to the software testing team, focusing on verifying and upholding the quality and dependability of software products throughout my tenure. This role allowed me to immerse myself in the intricacies of testing methodologies, ensuring that our products met the highest standards of excellence."

Key Responsibilities and contributions:

- Developed and executed test cases and test scripts to ensure the quality and functionality of the software.
 - Conducted functional, regression, and user acceptance testing to identify and report defects.
 - Collaborated with cross-functional teams to prioritize issues and drive resolution.
 - Participated in requirement analysis and test planning activities to align testing efforts with project objectives.
 - Contributed to the improvement of testing processes and methodologies to enhance overall product quality.
-

EDUCATION

- **Stream:** Bachelors Of Technology
 - **College Name:** Sushila Devi Bansal College of Engineering, Indore
 - **Batch:** 2018-2022
-
