New-Delhi

**Summary** — Experienced Software Test Engineer with 5.2 years of experience, evolving from manual to automation testing to stay ahead in the ever-changing tech landscape. Passionate about delivering seamless, high-quality software by combining precision, innovation, and a commitment to continuous learning.

## Skills

**Automation:** Selenium WebDriver, PostMan  
**Languages** Java, SQL  
**Testing Tools:** Jira, Zephyr, TestRail  
**Other Tools:** Microsoft Tools, Google Tools, Confluence.

**Soft Skills:** Test Case Design, Defect Tracking, Regression Testing, Agile/Scrum Framework, STLC, Project Management, Automation Framework, Functional, Integration Testing, Database Testing.  
**Behavioral Skills:** Communication Skills, Problem-Skills, Critical-Thinking, Time-Management.

## Experience

### Redcliffe Labs Private Limited.

Dec 2021 – Jul 2024

*Software Engineer*

- Created and maintained **test documentation**, including test cases, bug reports, and test summaries.
- Trained and mentored team members, sharing knowledge and ensuring best testing practices.
- Assessed risks and provided **test impact analysis**, ensuring critical areas are tested before deployment.
- Participated actively in **Scrum meetings**, sprint planning, and retrospectives, contributing insights to improve product quality and team efficiency.
- Conducted **cross-platform testing**, ensuring applications work flawlessly across multiple devices, OS versions, and screen sizes.
- Worked on **API testing** using **Postman**, validating request-response flows and ensuring data integrity.
- Started learning and implementing **automation testing** with **Selenium WebDriver, TestNG, and API testing**.
- Designed and executed **test plans and test cases** covering **functional, UI/UX, regression, and exploratory testing** to catch critical defects early.
- Collaborated closely with Product Managers and Developers to analyze requirements, define test strategies, and ensure maximum test coverage.
- Tracked and managed defects using **JIRA**, ensuring efficient triaging, root cause analysis, and quick resolutions.
- Worked by using **Manual Testing skills on Web, Android, iOS, and CRM platforms**, ensuring seamless functionality and a high-quality user experience.
- Designed, implemented, and optimized automated test cases, enhancing the framework to meet evolving project requirements.
- Improved the automation framework to accommodate evolving project requirements and engineered, implemented, and enhanced automated test cases if required.
- Managed the **Android Testing Team**, guiding testers, optimizing test strategies, and ensuring timely defect resolution.
- Took on **project management responsibilities**, prioritizing tasks, managing test execution, and coordinating between development, design, and **tracking Sprints** and creating it for smooth deliveries.

### Mindrops Solutions Private Limited.

June 2020 – Nov 2021

*Software Test Engineer*

- Began as an **Intern**, quickly proving my expertise and dedication, leading to a transition into a **full-time Software Test Engineer** role.
- Conducted **manual testing efforts** on high-impact projects for major clients like **Barbeque Nation**, ensuring robust, high-quality releases.
- Collaborated with cross-functional teams to translate business requirements into **comprehensive test scenarios**, enhancing test coverage and accuracy.
- Maintained a meticulous **defect tracking process** in **JIRA**, ensuring clear communication and swift resolution of issues.
- Executed **cross-browser and cross-device compatibility testing**, guaranteeing consistent user experiences across platforms.
- Engaged directly with clients during **UAT sessions**, providing expert insights and ensuring that deliverables met business expectations.

- Produced detailed **test reports and insights**, offering actionable recommendations that informed development priorities.
- Drove process improvements by adopting new testing techniques and tools, contributing to higher testing efficiency and accuracy.

## Education

---

### **Galgotia's University**

*B.Tech with 7.2 CGPA*

## Project Highlights

---

- **Barbeque Nation:**
  - Ensured a flawless user experience by rigorously testing end-to-end booking, payment, and reservation flows, preventing revenue-impacting defects.
- **Redcliffe Labs Website & Android App**
- **Phlebo App**
- **CRM**

## Certifications

---

- Udemy Selenium with Java. (On-Going)
- Generative AI.
