## WORK EXPERIENCE

### Senior Testing Engineer

ZKTeco India - Global R&D Center

06/2020 - Present

Bangalore

ZKTeco is a **global leader in biometric verification, security, and time attendance solutions**.

#### Achievements/Tasks

- Led QA efforts across **13+ projects** involving **access and attendance devices**, ensuring high-quality software releases.
- **Mentored and trained junior testers**, providing guidance on test planning, execution, and automation techniques.
- Designed and developed **automation test scripts** using **BDD-Cucumber with Selenium & Java**, improving test efficiency.
- Conducted **API testing** using **Swagger UI, Postman, and Rest Assured** to validate integrations and backend services.
- Applied **black-box testing techniques**, including **functional, regression, smoke, and adhoc testing**.
- Managed **defect tracking and resolution** using **Jira**, collaborating with developers for efficient bug fixes.
- Utilized **GitHub** for build control and version management in a CI/CD environment.
- Actively participated in **Agile sprints and daily scrums**, driving efficient test cycles and timely releases.
- Followed **SDLC & STLC** methodologies to enhance testing processes and maintain high-quality standards.

### Quality Assurance Junior Tester

OyefinTech

02/2020 - 04/2020

Bangalore

Oye Fintech is a **financial technology company specializing in digital lending solutions**.

#### Achievements/Tasks

- Conducted functional and regression testing for **financial applications**.
- Designed and executed test cases to ensure smooth **loan processing workflows**.
- Experienced in **Cypress** for automation testing.
- Reduced overall testing hours by writing and optimizing automation test scripts by using **TESTNg** framework.
- Hands-on experience in **Android & iOS** app testing.
