

Darshan Subhash Gaikwad
QA Software Engineer

Mobile Number: +919175988347
Email: darshangaikwad7058@gmail.com

Objectives

To become a successful Professional and to work in an organization where my knowledge can be shared and utilized, and my creative skills can be brought out in the best of that organization.

Professional Summary

- Software Professional with **3+** years of experience in **Web Automation and Manual testing**.
- Experienced in Automating Web Applications using **Selenium WebDriver, Core Java, and TestNG**.
- Good knowledge of **Software Development Life Cycle** and **Software Testing Life Cycle**.
- Expertise is performing different types of testing: **Blackbox, Smoke, Sanity, Functionality, Integration, Regression testing and full life cycle testing**.
- Experience in writing **Test Plans, Test Cases, Test Procedures and Test Scripts**.
- Sound knowledge of **Selenium Automation Frameworks** approaches such as **Page Object Model, Data-Driven, Keyword Driven and Hybrid**.
- Good knowledge of **Agile Methodology** and Basic knowledge of **HTML and SQL**.
- Extensive work experience in **Functional, Integration, System, GUI and Regression Testing**.
- Good knowledge of **Core Java, Selenium WebDriver, and TestNG Framework**.
- Good experience in writing **XPath** to locate web elements.
- Knowledge of building test scripts using **Selenium and Core Java**.
- Experienced in Building Object Repository Creating Reusable Functions, and Handling Web Elements.
- Ability to analyze and **understand Functional Requirements** and Specification Documents.
- API testing using **Postman and RestAssured**.

Technical Skills

- **Primary Skills** : Selenium Web driver, TestNG, JIRA, Git, Jenkins, Agile, Postman, RestAssured.
- **Languages known** : Core Java, MySQL, JavaScript
- **Manual Testing** : Test case design, Functional Testing, Smoke, Sanity, Regression, Re-Testing and UI Testing.
- **Build Tool** : Maven
- **OS** : Windows 7/8/10

Employment Details

- Working as a Team Leader in Mahindra Insurance Brokers Ltd, Solapur from March 2018 to Dec 2021.
- Worked as a software Test Engineer at NivTech Solutions , Pune Jan 2022 to till date.

Professional Project Experience

Project 2:

ERP Software for Bakery Industry	
The ERP software was designed to streamline the bakery operations such as a inventory management, order processing, product scheduling, financial accounting. The project involves testing an ERP system specially tailored for bakery industry. The software aims to manage core business process like raw material inventory, production schedule , sales order to insure efficient operations and cost management.	
Duration	Oct 2022 – Nov 2024
Technology Stack	Selenium WebDriver, Core Java, and TestNG, User Story Estimations, Smoke, Sanity, Regression, Re-Testing, Verification, Validation, Integration, End-to-end, Functional Testing and API testing using Postman and RestAssured.
Automation Responsibilities	<ul style="list-style-type: none">• Automation feasibility based on manual test cases and efforts estimations of user stories.• Contribution in developing framework for new applications as well as support for framework.• Creating/Executing/Modifying the automated test scripts and analyzing results• Execute of test case locally as well as on Jenkins.• Development of test scripts using Selenium WebDriver.• Well versed with handling elements in Web Driver.• Experience in writing XPATH and expression• Involvement in development of common functions required for Selenium scripts.• Performing cross browser testing by test scripts execution on IE, Firefox and Chrome.• Development of scripts to read and write test data from/to excel sheets.

Manual Responsibilities	<ul style="list-style-type: none"> ● Involved in estimations of user stories and all agile activities. ● Create/Update test cases as per acceptance criteria in Jira. ● Involve in test cases peer review and code review internally. ● Involvement in Application Test Execution, Results Analysis and Defect Reporting. ● Attending sprint meetings and interacting with client-side leads/team. ● Provided application KT as well as application transition for respective SME ● Involved in Regression, Smoke, Sanity, Re-Testing and Functional testing. ● Attending sprint meetings and interacting with client-side leads/team.
