- 

### Summary

Dynamic testing engineer with 4+ years of experience in manual and automated testing, collaborating with QA analysts, developers, and cross-functional teams. Skilled in test automation, agile methodologies, and quality assurance practices, with a proven record of attention to detail and delivering quality results

---

### Experience

#### Nous Infosystems & Nous Infosolutions Testing Engineer

2021(July) - Present

- Conducted comprehensive manual and automation testing, leveraging cypress and cucumber framework for automated scripts.
- Spearheaded the adoption of agile methodologies, fostering improved collaboration between development and testing teams.
- Identified requirements for enhanced testability, orchestrating manual and functional project testing, and meticulously reporting defects.
- Crafted efficient and organized manual test cases, maintaining defect databases, and ensuring software compatibility and functionality.
- Validated api responses, ensuring seamless communication between software components, and built automated test scripts for streamlined testing processes.
- Actively participated in sprint planning meetings, providing valuable input on test effort estimation and resource allocation.
- Validated application performance using jmeter tool.

#### Carlton IT Solution Software Test Engineer

2020(May) – 2021(June)

- Orchestrated manual and automation testing procedures, utilizing selenium and data-driven framework for test script creation.
  - Managed defect tracking systems, optimizing test cases, and coordinating regression test automation activities across applications.
  - Generated comprehensive test reports using testng, offering insights into software performance and quality.
  - Provided crucial qa perspective during bug resolution, facilitating efficient fixes and enhancing product reliability.
  - reviewed requirements and technical design documents, delivering timely and impactful feedback to drive product improvement
-

## Education

### Sri Krishna College of engineering and technology

2017 - 2020

Bachelors of Engineering – Electronics and Communication Engineering

85%

### PSG Polytechnic College

2014 - 2017

Diploma – Electronics and Communication Engineering

92%

---

## Award

Honored with three Snap Awards for exceptional performance
