Contact: +91 7272827490 | Location: Bengaluru, India

## Technical Skills:

**Languages:** Python, Pyspark, MySQL, Java, C++

**Technologies/Frameworks/Libraries/Tools:** API Testing, Jupyter, Postgres, GCP, Snowflake, Microsoft Excel, Postman API, ETL Testing, Selenium Testing, Jira, HVR Tools

**Soft Skills:** Communication Skills, Analytical Thinking, Problem-Solving, Adaptability, Collaboration, Creativity, Time Management

## Achievements and Certificates:

- Achieved **Google ACE certification** by completing the required coursework and assessments.
- Achieved **SNOWPRO CORE certification** by completing the required training and assessments.
- Appeared for and successfully passed the **Certified ETL Tester exam**.
- Successfully passed the **AWS Certified Cloud Practitioner exam**.
- Build QE test plans, strategies, and cases for any given app/feature.
- Automation, performance, and code quality testing using tools like Selenium WebDriver, Postman API, Appium, Postman, JMeter, Jenkins, etc.
- Earned prestigious **One for All awards** in the company, recognizing exceptional contributions and achievements.
- Received **Avengers Awards** and **Dynamo Awards** as part of a high-performing team, acknowledging collaboration, teamwork, and exceptional results.

## Work Experience:

**Quantiphi Analytics Solutions Pvt Ltd.**  
*Test Automation Engineer*

(2 years 2 months) **December 2022 - Present**  
*Bengaluru, India*

- Executed manual and automation testing, collaborating with cross-functional teams and clients to address and resolve defects, ensuring seamless bug resolution.
- Gained good exposure to Agile development, the waterfall, and the V models.
- Developed and implemented Selenium automation scripts in Python to validate search functionality on the Selenium Playground website.
- Created a comprehensive README document detailing the testing approach, best practices, and execution instructions to facilitate seamless adoption and understanding of the automation suite.
- Utilized the GCP console for testing purposes, leveraging its features to enhance test efficiency and accuracy.
- Developed automated test scripts using Selenium and executed data-driven tests to validate the application with multiple data sets.
- Conducted automated and functional testing by creating various types of scripts based on business logic.
- Good experience in the defect life cycle and defect tracking by using **ALM QC** and **JIRA**.
- As an ETL tester, I familiarized myself with the fundamental concepts of ETL, including data extraction from various sources, data transformation processes, and data loading into the target systems.
- Certifications: **Snowflake SnowPro Certification** | **AWS Certified Cloud Practitioner** | **Certified ETL Tester**
- Technical Stack: **Selenium** | **SQL** | **Snowflake** | **Postman** | **Python** | **AWS** | **Appium** | **Java** | **Jira** | **Cucumber**

## Internships:

**Quantiphi Analytics Solution Pvt Ltd.**  
*Test Automation Engineer Intern*

(4 months) **August 2022 - Dec 2022**  
*Bengaluru, India*

- Automate the yatra.com webpage to handle multiple scenarios efficiently using Selenium with Java.
- Developed expertise in cloud platforms like AWS and GCP, optimizing cloud resource utilization by 20% during project implementation.
- Certifications: **Google Cloud Platform (Associate Cloud Engineer)**
- Technical Stack: **Python** | **SQL** | **Jenkins** | **Selenium** | **GCP** | **Webdriver** | **Postman** | **API Testing**

## Education Qualification:

**GL Bajaj Institute of Technology and Management**  
Bachelor of Technology in Information Technology (CGPA of 7.59)

**August 2018 - June 2022**  
*Uttar Pradesh, India*

**Rahul S J Inter College L.Rampur Azamgarh Uttar Pradesh**  
Senior Secondary School (Percentage of 81.6 )

**June 2017**  
*Uttar Pradesh, India*
