Profile Summary

Professional Quality Analyst with almost 3 years of experience in software quality processes, involved in end-to-end product testing and management across multiple platforms. I have experience in manual, web, automation, and API testing. Awarded "Top Performer" for excellence in automation testing and process optimization.

Experience

Ascendion Engineering Private Limited

Senior Associate Application Engineering

03/2022 – present | Vadodara, Gujarat

- Led comprehensive manual testing initiatives**, identifying over **120 usability issues** and validating critical features for **three major releases**, significantly enhancing application performance and end-user experience.
- Directed test planning and requirement analysis** for over **3 projects**, ensuring thorough coverage of both business and technical requirements.
- Executed functional, regression, smoke, and UAT testing** across multiple platforms, contributing to a **30% reduction in critical production issues**.
- Developed and maintained automation test scripts** using **Selenium WebDriver** with **Java** and **TestNG**, following the **Page Object Model (POM)** design pattern to improve testing efficiency and application stability.
- Automated 60% of regression test cases**, leveraging **Selenium WebDriver** and **TestNG**, reducing manual testing efforts by **40%** and accelerating release cycles.

Education

B.Tech | Computer Science And Engineering

Amity University

08/2016 – 07/2020 | Gwalior

Key Achievements

Enhanced Application Performance

Reduced critical production issues by 30% through effective testing strategies.

Boosted Testing Efficiency

Automated 60% of regression tests, reducing manual testing time by 40%.

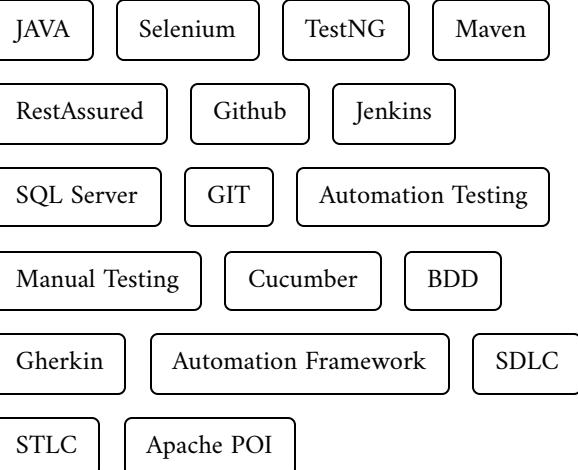

Usability Improvements

Identified over 120 issues, improving usability across three releases.

Comprehensive Test Planning

Directed successful test planning for over 3 projects, ensuring complete coverage
