---

## Technical Skills

**Technical skills:** JIRA, Polarion, Selenium with java, Appium inspector, Appium server ,IntelliJ, SharePoint, Android studio, PyCharm, Eclipse, Cucumber (Basic), Microsoft Visual Studio

**Domain skills:** Functional testing, smoke testing, System testing, Regression testing ,Performance & Load Testing, Informal and Formal testing, Requirement analysis ,Traceability, Designing Use case scenario, Test Suites, Reporting bugs and defects,Language-java,python.

**Personal skills:** Coordinated with the team members to successfully complete project milestones ahead of deadlines, Determined the root cause of the bug to prevent the recurrence, Self-motivated and highly organized.Analytical, problem-solving, and communication skills.

---

## L&T Technology and services

January 2021 – Present

### Test Engineer

Mysore, India

- Understanding various requirements, analyzing and accordingly creating Test documents
- Experience in carrying out different types of testing like System testing, Adhoc testing, Functional testing, Dry Run testing, UAT Testing, Regression testing, Performance testing, Smoke testing and Sanity Testing for web and mobile applications.
- Have good exposure of working in web and mobile applications in various mobile devices and browsers, testing methodologies with ability to create perfect test cases with all possible scenarios.
- Worked in requirements gathering and analysis, Test plan preparation and review, Test protocol development and review, Test Execution, Test Summary Report generation, effectively involved in Functional testing, Bug Reporting and Tracking, Followed the Good Documentation Practice throughout the project.
- Reviewing Requirements, Analyzing Requirements and Writing Test case Tools used: Appium Server, Appium inspector, IntelliJ, android studio, JIRA, Polarion
- Experience in executing Test Cases and Test Scripts to test the application functionality against the requirements and generate report, if any error export logs.
- Experience in Automation testing of mobile applications with Selenium JAVA, Selenium Web Driver, IntelliJ with various tools like Appium inspector, Appium server, android studio. Good Experience on Defect, Defect Life Cycle and Defect Tracking.
- Experience in Bug Tracking tools like JIRA. Good Communication with Customer and cross functional team.
- Exposure in Software Development Life Cycle (SDLC), Testing Life Cycle (STLC) and Defect Life Cycle Experience in working with cross functional teams Agile (SCRUM) methodology.
- Performed Regression and sanity testing with the new deployments and defect fixing, executed dry run and formal executions.
- Collecting and Analyzing requirements for the medical device, Creating and reviewing test plans, developing and reviewing test protocols, carrying out tests, and producing test summary reports, actively engaged in tracking bugs, reporting defects.
- Good Documentation Practice during the project and good Communication with Customer and cross functional team.

## Projects in L&T Technology and services

### Dometic Interact mobile application /

Nov 2021 - Aug 2022

- Testing the device, Developing and automating the test cases and reporting bugs in JIRA

### Ultrasound medical device testing /

Sept 2022 - Aug 2023

- Testing the device manually and reporting bugs in JIRA

### Rinnai mobile application /

Sep 2023 - Aug 2024

Testing the device, Developing and automating the test cases and reporting bugs in JIRA

## Education

### Anna University

Aug 2017 – May 2021

Bachelor of Engineering in Electronics and communication Engineering

Chennai ,India
